Program description

Objective

The main aim is to improve your everyday organization and access to the German job market through up-to-date information, counselling, and training for women with an immigrant background.

The special needs of women, in particular the compatibility of family and work, will be taken into account for the program itself as well as for later job opportunities.

If no other options are available, child care is offered at our Kinder-Klub.

Participation in the program before, during or after an integration course is possible, also with rudimentary German language skills. An internship is the goal.

Duration

Depending on personal progress, there are classes 1–2 times a week for 3 hours each day. The program runs for a maximum of 4 months.

Agenda

The program encompasses, amongst others, the following topics:

- Continuous individual and group coaching for long term integration into an apprenticeship or a job
- Information, consultation, and training on the major German educational, social, and organisational systems
- Compatibility of family and work through guided help (apartment search, child care, immigration advice, etc.)
- Mobility training
- Family counselling
- Language and computer training
- Introduction into the German job market
- Assessment of work related expertise and skills
- Development of job perspectives
- Coaching for job interviews
- Mediation of internships

Funding of the program

The measure is part of the program "VOICE", a cooperation between the district Marburg-Biedenkopf, the university town Marburg and the *Agentur für Arbeit Marburg* who collectively coordinate refugees.

The program is funded through the budget of the *Hessischen Ministeriums für Soziales und Integration* and is available for free for female clients of the district Marburg-Biedenkopf who are eligible for SBG II or AsylbLG.
